May 2, 2000

Dear Examiner:

I am writing to inform the Examiner that, in addition to the references disclosed herein, there exists at the Patent and Trademark Office ("PTO") a searchable collection of approximately six hundred references on CD-ROM (and an accompanying index) that generally relates to the Institute of Electrical and Electronics Engineers (IEEE) Standard 1394 for a High Performance Serial Bus. Among the references are approximately four hundred Japanese publications with English translations of their abstracts. In addition, the collection includes approximately two hundred U.S. patents and publications. The collection was forwarded to Patent Electrical Technology Center directors Jin F. Ng, Robert E. Garrett, Joseph J. Rolla, and Rolf G. Hille.

Please note that the collection was compiled for reasons other than patent prosecution and, thus, the accompanying index was often based upon a cursory reading of a reference sufficient to identify that a particular reference was related to an IEEE 1394 category. In some cases, for example, only the abstracts were reviewed. Examiners, thus, should not necessarily rely on these categories. Since the CD-ROM is searchable, examiners may wish to rely upon that search capability rather than the index.

I hope this collection of art will be another useful resource, supplementing your other means of searching. If you have any questions, please contact me.

Sincerely Yours

WAGNER, MURABITO & HAO LLP

Wilfred H. Lam
